

**RETRACTABLE – REMOVABLE HEADPHONE
MODULE FOR PORTABLE COMPUTERS**

Abstract of Disclosure

5

10

A computer includes a body having a PC card slot formed therein. A headphone module includes a carrier removably mounted in the slot. A retractor member is mounted on the carrier. A flexible cord is extendibly and retractably connected to the retractor member. The cord includes at least one headphone connected to a first cord end and a connector connected to a second cord end opposite the first end. A headphone receptacle is provided on the carrier.
